DPS Kidz, situated in the heart of the Raigarh city, is set in a fun, friendly and colourful atmosphere. The “riverside kindergarten” houses all the facilities which will make tiny tots feel at home away from their home.

DPS Kidz aims to provide young children with a stimulating, exciting and safe environment, where they can discover, communicate and learn to express themselves at many levels.

Play is an essential part of this learning process, and is used to extend their boundaries, through which children can begin to understand themselves and the World around them.

Through play and activities, music and song, story and poetry, experience and observation, interaction and conversation, we provide the foundations on which to build.
